To Whom It May Concern,

EXPLANATORY LETTER REGARDING DELAY IN WEBTRUST ASSURANCE REPORT

We are engaged as the independent auditor for Thai Digital ID Company Limited (the "Certification Authority") in respect of the WebTrust for Certification Authorities audit for the period 1 March 2025 through 28 February 2026.

This letter is issued in accordance with the requirements of the Common CA Database (CCADB) and the Mozilla Root Store Policy, which require that an audit statement be made publicly available within 92 calendar days from the end of the audit period, or alternatively, that an explanatory letter be provided where this deadline cannot be met.

As of the date of this letter, the audit fieldwork is scheduled to commence on 25 May 2026, and accordingly, the final WebTrust Assurance Report cannot be issued within the required 92-day period ending 31 May 2026.

The delay in issuance of the WebTrust Assurance Report is due to audit scheduling and timing of fieldwork, and not due to any identified issues with the Certification Authority's control environment or audit procedures.

Based on the current audit plan, the WebTrust Assurance Report is expected to be issued by 30 June 2026.

We confirm that the delay is administrative and scheduling-related in nature only, and does not impact the scope, execution, or quality of the audit procedures to be performed, nor the integrity of the audit opinion to be issued.

The audit will be conducted in accordance with applicable professional standards and our firm's quality control requirements.

This letter is intended to provide transparency regarding the timing of the audit report and to support compliance with CCADB reporting requirements. It may be submitted to relevant root store operators, including the Microsoft Trusted Root Program, and disclosed via the Common CA Database (CCADB).

Yours faithfully,

Steven Koh Yang Wei
Partner, Audit & Assurance
